MATERIALS IN THE JOHNSON LIBRARY PERTAINING TO **THE 1965 INAUGURATION** (including the Inaugural Address)

INTRODUCTION

This list includes the principal files in the Johnson Library that contain material relating mostly to the 1965 Inauguration. It is not definitive, however, and researchers should consult with the Library's archivists about other potentially useful files. The guide includes those collections which have been opened for research in part or in whole, and those collections which are currently unprocessed or unavailable. The Library has also prepared brief lists of material available on the following topics:

WHITE HOUSE CENTRAL FILES (WHCF)

This permanent White House office was the main filing unit during the Johnson presidency, though not the primary file for foreign policy documents. Material was filed under 60 major subject headings, several of which are pertinent to the Inauguration. For descriptions of the various subject headings, see the finding aid for WHCF.

NATIONAL SECURITY FILES, SPECIAL FILE

This file was the working file of President Johnson's special assistants for national security affairs, McGeorge Bundy and Walt W. Rostow. Documents in the file originated in the offices of departments and agencies, especially those having to do with foreign affairs and national defense, and in diplomatic and military post around the world. Consult the finding aid in the Reading Room or borrow a lending copy by writing to the Supervisory Archivist, LBJ Library, 2313 Red River Street, Austin, Texas 78705. Those folders whose titles are preceded by an "X" or a date have been processed and their contents declassified in whole or in part. Lists of classified documents have been placed in those folders, and you may request mandatory review of individual documents that have not yet been declassified in full. Those folders not preceded by an "X" or a date are unprocessed and are not subject to mandatory declassification review. Consult with a member of the staff on the processing schedule.

RECORDINGS AND TRANSCRIPTS OF TELEPHONE CONVERSATIONS

The Johnson Library staff is currently processing the recordings and transcripts of President Johnson's telephone conversations. The collection includes over 5,000 recordings of conversations with members of Congress, other public officials, civil rights leaders, members of the press, friends, and family.

JFK assassination-related recordings and transcripts identified by the Library staff from four periods during the administration were opened in increments from September 30, 1993, through April 15, 1994 (please consult the finding aid for that collection for further information). The JFK Assassination Records Collection, located at the National Archives at College Park, 8601 Adelphi Road, College Park, Maryland 20740, has copies of these recordings and transcripts. On October 11, 1996, the Library opened conversations recorded in January through March of 1964 and will open chronological increments of the collection periodically. The unprocessed portion of the collection may include conversations of interest to you which are not included on this guide. If you wish to be notified when additional recordings and transcripts are released, please contact the Library.

Many of the recordings were **NOT TRANSCRIBED**. The transcripts that were made were prepared in the White House and during the drafting of the President's memoirs, The Vantage Point, published in 1971. Researchers should be cautioned that these transcripts are not always reliable and should never be used without checking them against the actual recordings to assure accuracy.
