## MATERIALS AT THE LBJ LIBRARY PERTAINING TO WESTERN EUROPE AND NATO (1963-1969)

(including Austria, Belgium, France, Germany, Great Britain, Ireland, Italy, Liechtenstein, Luxembourg, Malta, Monaco, Netherlands, Portugal, San Marino, Spain, Switzerland, Trieste, and the Vatican)

This list includes the principal files in the LBJ Library that contain material on Western Europe and NATO. It is not definitive, however, and researchers should consult an archivist about other potentially useful files. For additional material on foreign economic policy involving Western Europe, see the Library's guide entitled, "*Trade, Balance of Payments, and International Monetary Issues*." (FI 9, FO 4, TA) Other guides include "*Northern Europe*" (CO 61, CO 80, CO 95, CO 120, CO 208, CO 277) and "*Pre-Presidential Materials on Western Europe and NATO*."

Researchers may also want to consult the *Foreign Relations of the United States* series before conducting research at the Johnson Library. This multi-volume documentary history is the official record of U.S. diplomatic activity. The volumes contain many documents from the holdings of the Johnson Library. The published volumes are available on-line at the State Department's web site at <http://www.state.gov/r/pa/ho/frus/johnsonlb/>, and you can also reach that site through the "Related Links" section of the Johnson Library web site (<http://www.lbjlib.utexas.edu>) under the "Research" button. Bound volumes may be available at any major university or public library.

## NATIONAL SECURITY FILE (NSF)

This file was the working file of President Johnson's special assistants for national security affairs, McGeorge Bundy and Walt W. Rostow. Documents in the file originated in the offices of Bundy and Rostow and their staffs, in the various executive departments and agencies, especially those having to do with foreign affairs and national defense, and in diplomatic and military posts around the world.

Over one-half of the National Security File has been processed and opened for research. Consult the finding aid in the reading room or borrow a copy through interlibrary loan by writing to the Supervisory Archivist, LBJ Library, 2313 Red River Street, Austin, Texas 78705. Some parts of the finding aid, including the finding aid for the Country File, are available on the Johnson Library's web site. Those folders whose titles are preceded by an "X" or a date have been processed and their contents declassified in whole or in part. Lists of classified documents have been placed in those folders, and you may request mandatory declassification review of individual documents which have not yet been declassified in full. Those folders not preceded by an "X" or a date are unprocessed and are not subject to mandatory declassification review. Consult with a member of the staff on the processing schedule.

NSF, Files of the Special Committee of the NSC.

The Special Committee of the National Security Council was established by President Johnson on June 7, 1967, to coordinate handling of the Middle East Crisis. McGeorge Bundy was Executive Secretary. The Special Committee ended its formal work in August 1967. The following files deal specifically with European countries.

“France”	3
“Germany”	3
“Italy”	5
“Switzerland”	6
“United Kingdom”	7

### **NSF, National Security Council Histories.**

In 1968, the NSC staff prepared documentary histories of 21 international crises and events from the Johnson presidency. Compiled by xeroxing key documents in the National Security File and in other files, these collections are extremely useful. Moreover, they provide access to documents the originals of which, in some cases, are in unprocessed files. One NSC history deals with Western Europe and NATO:

“Trilateral Negotiations and NATO, 1966-1967”	50-51
Three NSC histories deal with U.S. foreign economic policy and Europe:	
“Kennedy Round Crisis, April-June, 1967”	52
“Gold Crisis, November, 1967-March, 1968”	53
“1968 Balance of Payments Program”	54
“Non-Proliferation Treaty”	55-56

### **NSF, Memos to the President.**

This chronologically arranged series consists of memoranda (with attachments) to the President from his national security advisers, McGeorge Bundy (11/63-2/66) and Walt W. Rostow (4/66-1/69). The first forty-two boxes (through November 1968) have been opened for research, and significant portions have been declassified. Additional boxes are currently being processed. Material on Western Europe and NATO is scattered throughout this file.

#### **LYNDON BAINES JOHNSON ARCHIVES 1931-1968**

In 1958, the Johnson staff instituted a records management program in the office which included a plan to dispose of non-current files. They set up the Lyndon Baines Johnson Archives (LBJA) to house items to be permanently retained rather than scheduled for disposal. Johnson files from the House and Senate period were screened, and selected items and files were moved to the LBJA file. Between 1958 and 1963, the staff continued to add to the file. Occasionally items were added during the White House period. The LBJA consists of four parts: a Congressional File, a Famous Names File, a Selected Names File, and a Subject File.
